Task 22

Translate these paragraphs.

➔ Online shopping is a form of electronic commerce which allows consumers to directly buy goods or services from a seller over the Internet using a web browser or a mobile application.

➔ Online Shopping occurs when a customer buys through a digital platform. An example of such a platform is Aliexpress.com, online store from China. You don't have to live in this country to get one of the products this store sells.

Task 23

Read these definitions.

- **Image** is a physical likeness or representation of a person, animal, or thing.
- A **digital image** is an image composed of picture elements, also known as pixels, each with finite, discrete quantities of numeric representation for its intensity or gray level.
- **Text** is written words in a book, newspaper, etc.
- **Digital text** is an electronic version of a written text.
